Events Inside!

Jan 1st - Ancient Babylonians celebrated the New Year around 2000 BC during the spring equinox.

The Romans established January 1 as the start of the year in 153 BC, honoring Janus, the god of beginnings.

In medieval Europe, New Year's Day was often celebrated on different dates, including Easter and Christmas.

The Gregorian calendar, adopted in 1582, standardized January 1 as New Year's Day for many countries.

Various cultures have unique traditions, such as fireworks in China and the ball drop in Times Square, New York.

New Year's resolutions date back to the Babylonians, who made promises to their gods for the coming year.

Jan 19th - Doctor Martin Luther King, Jr. was born on Jan. 15, 1929. It's a date honored nationwide on the third Monday in January. He was one of the most important figures in American civil rights history. The celebration of Dr. King's birthday has been sadly marked by some of the discrimination he fought so hard against. King's birthday was not officially honored in all 50 states until the year 2000.
